The University

Rajamangala University of Technology Suvarnabhumi (RUS), one of the significant centers of education for science and technology in the central region of Thailand, was renamed as a government university on January 18, 2005 and supervised by Commission on Higher Education, Ministry of Education. The university comprises four campuses covering three provinces. Phranakhon Si Ayutthaya Huntra campuses and Phranakhon Si Ayutthaya Wasukri campuses are situated in Phranakhon Si Ayutthaya province whereas the other two campuses are in Nonthaburi and Suphanburi Provinces. Despite its recent foundation, the university has long been developed and has undergone several organizational changes, for its eminent achievement in professional education for over 30 years.

In 1988 the name “Rajamangala Institute of Technology” (RIT) was awarded to the Institutes of Technology and Vocational Education by King Bhumibol Adulyadej. In 1989 the Ministry of Education renamed RIT’s 17 provincial campuses resulting in the new names of these 3 campuses as “Phranakhon Si Ayutthaya Huntra campus, Phranakhon Si Ayutthaya Wasukri campus and Nonthaburi campus”, respectively. After the promulgation of the first national Education Act in 1999 onwards, all institutes of higher education have been under the supervision of Commission on Higher Education. Therefore, the RIT reformed the RIT act 1975 by assembling all RIT campuses and restructuring them into 9 groups before proposing the RMUT act to

establish nine universities in which the RUS was launched by reuniting Wasukri, Huntra, Nonthaburi and Suphanburi campuses and housing the office of the President based in the Huntra district.

The Faculty

From 2005 onwards, the Faculty of Agricultural Technology and Agro-Industry carries out education, research, and academic services at Phranakhon Si Ayutthaya Huntra campus. The faculty consists of five departments including Plant Science, Fisheries Science, Food Science and Technology, Animal Science, and Farm Machinery Technology. These departments offer a high-quality course at undergraduate level.

Academic Program

Bachelor of Science (B.Sc.)

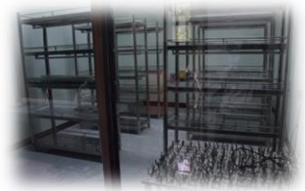

- Plant Science
- Fisheries Science
- Food Science and Technology
- Animal Science
- Farm Machinery Technology

Master of Science (M.Sc.) (available: academic year 2018)

- Agricultural Technology

Hands-on Learning (on-farm)

- Plant Science
 - Horticulture
 - Mushroom
 - Agronomy
 - Plant Protection
- Fisheries Science
 - Shrimp Culture
 - Fish Culture
 - Ornamental Fish Culture
 - Fox Culture

- Food Science and Technology
 - Food Processing
 - Beverages Processing
 - Food Analysis
 - Green Café (Food and Beverage Services)
- Animal Science
 - Pig Farm
 - Poultry Farm
 - Beef and Dairy Cattle Farm
 - Sheep and Goat Farm
 - Feedstuff Production
 - Animal Diseases and Health Care
- Farm Machinery Technology
 - Rice Mill

Academic cooperation

The Faculty of Agricultural Technology and Agro-Industry has cooperated with various organizations both in Thailand and abroad under memorandum of understanding (MOU) for academic collaboration, teaching and research in fields of agriculture with more than 15 high schools in Thailand, some company in food and plant and also many international universities in Asia.

Thai Enterprises

- Sunee Food Product Co., Ltd.
- Euro Best Technology Co., Ltd.
- Green Organic Farm Co., Ltd.
- Maharaj Food Co., Ltd.
- Mighty International Co., Ltd.
- Pacific Seeds (Thai) Ltd.
- Rojanakasikit Fertilizer Ltd.
- Yanmar Co., Ltd.

International Universities

- Central Luzon State University (CLSU), Philippines
- National Pingtung University of Science and Technology (NPUST), Taiwan
- Bogor Agricultural University, Indonesia
- Universitas Padjadjaran, Indonesia
- Faculty of Engineering and Computer science universitas Bakrie, Indonesia
